Donating and Thrifting Updates

11.1.24

Donors need to be committed. Plan ahead. Some needs are year-round, but many are seasonal. Your donations do the most good when you consider their best times to receive your goods.

For example: Now is the best time for warm coats. Giftable items like household and fashion accessories donated now will make the upcoming holidays brighter and more affordable for others.

Check website, then email or call ahead to verify donation policies and hours of operation.
